

2019 Project WET Workshop

Presented by

Solano Resource Conservation District

When is the Workshop?

Saturday, February 23, 2019 from 8am to 3:30pm

Where is the Workshop?

Dunnell Nature Park and Education Center in Fairfield is a newly restored interactive nature center featuring a demonstration garden and conservation-themed bilingual interpretive panels, grassland restoration area, and a creek overlook for wildlife viewing.

What is Project WET?

The Project WET curriculum is for K-12 classrooms, water-themed, hands-on, STEM-friendly, multi-disciplinary, engaging and enriching, and aligned with Common Core & Next Generation Science Standards.

How can we meet your curricular training needs?

This workshop focuses on water education for Solano County teachers. Administrators, curriculum coaches, and other support staff are welcome.

Break-out sessions for secondary & elementary

The workshop will feature a presentation on our water resources in Solano County. California Project WET Coordinator, Brian Brown, will co-facilitate with Solano RCD's Wendy Low.

Who may attend?

ANY Solano County educators!

Teacher Teams

- ▶ S.T.E.A.M./S.T.E.M. Departments
- ▶ Learning Academy teams
