Project WET Teacher Training

September 22, 2018 & February 23, 2019

A professional development session providing a free curriculum and hands-on training for educators to incorporate water awareness and conservation in the classroom environment.

*\$50 stipend available to the first 20 sign ups!
(Stipend only available for the September training)*

“Test Your Tap” Lesson Grades 5-12

2-day lesson that focuses on the quality of tap water & bottled water. Includes background lesson and lab testing on various water sources.

Dunnell Nature Center

Field trips to Dunnell NC in Fairfield offer students the opportunity to learn about watersheds first-hand. Limited availability.
